

International workshop

Public food procurement for schools amidst a health and financial crisis: lessons learnt and gaps still to fill in sight of the EU Recovery Plan

organised by the PPRG University of Nottingham and Sapienza University of Rome,
with the technical cooperation of the Food and Agriculture Organization of the United Nations

SAPIENZA
UNIVERSITÀ DI ROMA

**University of
Nottingham**
UK | CHINA | MALAYSIA

**BRITISH
ACADEMY**
for the humanities and social sciences

The workshop aims at promoting exchanges among policymakers, practitioners, and researchers on options, challenges, research, and policy gaps related to establishing sustainable public food procurement for schools. The workshop will offer an opportunity to exchange ideas and best practices on the benefits of nutritious and sustainable food for schools and exchange examples of excellence and best practices.

Differently from other events, this workshop aims not only to emphasize success stories and examples of excellence but also to bring to the fore the gaps in certain countries and regions of the same country in implementing sustainable food procurement practices for schools.

The **UN Special Rapporteur on the Right to Food, Mr. Michael Fakhri**, will close the workshop, addressing all participants with his final remarks.

**2022, November 25
9.30-18.00**

Centro Congressi d'Ateneo, Via Salaria 113

Partecipare al workshop rende possibile per gli studenti interessati il riconoscimento di 1 CFU (farà fede l'attestato di partecipazione); sarà possibile il riconoscimento di 1 ulteriore CFU a seguito della stesura di un breve elaborato da parte degli studenti interessati (brevi risposte a tre domande sui temi del workshop).

Programme

Morning

09.30-10.00 Opening and welcome

Pierpaolo D'Urso (Head of Department, DiSSE, Sapienza)
